An AI workflow you can check.

Fictional source facts

Paper & Play is a beginner paper-folding session. F03: 45 minutes. F04: 12 places. F05: paper supplied. The date, venue, age guidance, fee and booking method are unconfirmed. Use the companion CSV for all F01-F10 values.

Your task

Draft four short FAQs for internal review. Use only the supplied facts. Return: question, draft answer, supporting fact IDs and review status. Mark missing details HOLD. Do not send or publish the result.

What does a successful, reviewable draft contain?

My prompt version / source limitations

One failure case I will test before trusting the workflow

An AI workflow you can check.

Check this prepared draft

Claim: "Paper and glue are supplied." The source confirms paper only. Claim: "Meet at the community hall." The venue is unconfirmed. Correct wording needs a real source; an attached fact ID is not proof.

Claim 1 / supporting source / PASS, REVISE or HOLD

Claim 2 / supporting source / PASS, REVISE or HOLD

What is missing, conflicting or outside the brief?

Who must review the draft before any real action?

Save the source sheet, prompt, draft, review notes and corrected version. Label prepared examples and actual AI outputs accurately. Practise with permitted material only.
