Ask a better course question.

Use the same questions for two providers. Write the source and date of each answer. Unanswered details remain questions. This worksheet does not contain current Upnova fees or batch terms.

The output I want to learn to make

Course A / provider / source and date

Teacher, projects and individual feedback process

Live schedule, language, recordings and practice time

Applications, licences and device requirements

Ask a better course question.

Course B / provider / source and date

Teacher, projects, feedback and schedule

Total costs for each option / included and separate charges

Written cancellation, certificate and internship conditions

Unanswered questions before I decide

Keep the written details for the batch you are considering. Check claimed credentials at their original source. Course attendance does not itself confirm internship selection, work or income.
