Explain the work behind the result.

Use a small self-initiated project to explain your work. Label fictional exercises. Do not invent a client, result, review or placement outcome.

Project name and honest work label

Brief / audience / intended output

My role and any collaborators

The main decision and the reason behind it

A revision I made or still need to test

Explain the work behind the result.

Asset and permission log

For each image, clip, font, sound or template, record its source and the permission or licence that applies. This log helps organisation; it does not assess a licence for you.

Asset 1 / source / permission / my contribution

Asset 2 / source / permission / my contribution

Asset 3 / source / permission / my contribution

Link and access checks / signed-out view / phone readability

Before sharing: explain the brief, role, decisions and revision. Use working preview links. Keep confidential material and private contact details out. Confirm internship selection and written terms separately.
